EXAMINER'S AMENDMENT

1. Claim 1 is allowable. The restriction requirement as set forth in the Office action mailed on September 15, 2006 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2-4, directed to the embodiment of Fig. 5 are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. Claims 1-20, 23-25 and 65 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach and/or fairly suggest a tool for determining the axial position of an end of a conduit within a fitting comprising a body, a nut, and a conduit gripping device, such as a ferrule, wherein a

source is adapted to apply mechanical energy into the conduit and receive reflected energy, and an analyzer determines the axial position of the end of the conduit with relative to the source, as taught by applicant on page 12, lines 13-20, of the specification. Regarding claim 9, the prior art also fails to teach and/or fairly suggest a source configured to apply mechanical energy to the fitting body in addition to the conduit, as taught by applicant on page 15, lines 16-20, of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
